FERTILIZER TENDERS

At Brehmer, we're proud to be a partner to the agriculture industry. We know the importance of correct fertilizer application and the roll it plays in your operation. That's why we build with quality materials and implement time and cost-saving features. We build each tender box to suite your needs by asking the right questions at the start of a project.

SIDE DISCHARGE

FEATURES:

- Self-Locking Hydraulic Discharge Auger

OPTIONS:

- Split Bins
- Diesel or Wet Kit Available
- Stainless Steel Fenders

COLOR OPTIONS:

Stainless Steel

Brehmer Gray

TRUCK MOUNT

18' Side Discharge Truck Mount

TENDER SIZE	16'	18'	20'
Travel Height	7'2"		
Auger Length	16'7"		
Discharge Height - MIN	7'1"		
Discharge Height - MAX	14'2"		
Auger Reach - SIDE	13'4"		
Standard Cubic Feet	569	663	711
6" Taller Cubic Feet	633	735	791

Discharge height is measured from the top of the existing truck frame.

TRAILER MOUNT

24' Side Discharge Mounted on a 45' Trailer

TENDER SIZE	20'	24'	28'	32'
Travel Height	10'8"			
Auger Length	16'7"			
Discharge Height - MIN	10'7"			
Discharge Height - MAX	17'8"			
Auger Reach - SIDE	13'4"			
Standard Cubic Feet	711	854	996	1138
6" Taller Cubic Feet	791	950	1107	1265

All Brehmer Fertilizer Tenders are built with:

EZ Slide Gate System

- Run gates full-open without clogging

LOW Center of Gravity

- Unique to Brehmer Tenders
- Increases safety, decreases rollovers

304 Stainless Steel Bin Construction and Auger Flighting

Filled-In Tarp Bow System

Individual Hopper Ladders

Reinforced Corner Gussets

Unloading Capacity of 3500-4000 lbs/min

Grease Banks

Unique Bearing Design

2" Clean-Outs

OVERHEAD DISCHARGE

FEATURES:

- Top-Mounted Orbital Motor on the Vertical Auger
- 270° Rotation Auger System
- 10" Belly, 13" Vertical, 10" Discharge

OPTIONS:

- Split Bins
- Diesel or Wet Kit Available
- Stainless Steel Fenders

COLOR OPTIONS:

TRUCK MOUNT

NEW! TOP MOUNTED ORBITAL MOTOR ON ALL UNITS.

TENDER SIZE	16'	18'	20'
Travel Height	8'10"		
Auger Length	16'10"		
Discharge Height - MIN	7'2"		
Discharge Height - MAX	17'8"		
Auger Reach - SIDE	13'7"		
Auger Reach - REAR	14'7"		
Standard Cubic Feet	569	663	711
6" Taller Cubic Feet	633	735	791

Discharge height is measured from the top of the existing truck frame.

Stainless Steel Tank Nurse Trailer front and back platforms can be customized for the size of your stainless steel tank.

FIELD LOADER CONVEYORS

FL1024

Featuring 304 stainless steel undercarriage and framework, this field loader boasts a drive wheel with power steering.

Hydraulic driven and steerable drive wheel

STANDARD FEATURES:

- 20 HP Honda engine, electric start
- 24" wide crescent top belt with stainless steel lacing
- 30° Incline
- 1" bearings
- 13' 3" discharge height
- Direct hydraulic driven crowned and lagged drive pulley
- Self-aligning belt-tightening system (Patent Pending)
- 304 stainless steel undercarriage and framework
- Hydraulic driven and steerable drive wheel
- 205/75R 15" tires
- Variable belt speed
- Low profile 10" horizontal hopper
- 25'6" incline
- 4' folding hopper
- Adjustable discharge chute
- Tow hitch with 1" clevis and safety chains
- 8 gallon gas tank

OPTIONS:

- Stainless steel weather covers
- Enclosed discharge spout

FL1030

Ruggedly designed to work in any environment, the FL1030 Field Loader from Brehmer Mfg. is designed to handle your ag lime and fertilizer loading needs.

Remote controlled belt and tow hitch.

Optional hopper skirting

STANDARD FEATURES:

- Wireless remote RPM and belt on/off
- Start/stop with a fully loaded belt
- Duetz 2.9L engine, electric start
- 30" wide belt
- 25° Incline
- 2" bearings
- Direct hydraulic driven crowned drive pulley
- Self-aligning belt-tightening system (Patent Pending)
- Variable belt speed
- 10' hopper
- 13' 11" discharge height
- 12' 6" roller height
- Tow hitch with 1" clevis and safety chains (Pintle hitch, optional)
- Wireless remote hydraulic powered raise/lower hitch
- 38" max hitch height
- 44' 2" overall length
- 13' 2" travel height
- Brake and turn lights, 7-way RV plug
- 255/70 R22.5 tires
- 7,100 lbs total wt. (1,060 lbs tongue wt.)
- 30 gallon fuel tank
- 34 gallon hydraulic reservoir

OPTIONS:

- Hopper Skirting

Combination
conveyor for
LIME &
FERTILIZER

FLX 1224

Transition between fertilizer and lime with the dual purpose FLX1224 Field Loader from Brehmer Mfg. **The lime hopper easily disassembles and converts for low-profile loading of fertilizer.**

The lime hopper converts for low profile loading for fertilizer.

Don't need a full lime hopper? Order the FLX1224 standard fertilizer package.

STANDARD FEATURES:

- Start/stop with a fully loaded belt
- 25 HP Honda engine, electric start
- 24" crescent top belt with stainless steel lacing
- 25° Incline
- Direct hydraulic driven crowned and lagged drive pulley
- Self-aligning belt-tightening system (Patent Pending)
- Hydraulic driven and steerable drive wheel
- Variable belt speed
- 14' 10" discharge height
- 14' clearance under top drive pulley
- Adjustable discharge chute
- Adjustable tow hitch with 1" clevis and safety chains (Pintle hitch, optional)
- Brake and turn lights, 7-way RV plug
- 8 gallon gas tank
- 304 stainless steel

OPTIONS:

- Choose from the Lime Hopper or the Standard Fertilizer package.
